Response to Amendment

1. Based on applicant's amendment, filed 2/5/2008, see page 8 through 9 of the remarks, with respect to cancellation of claims 2, 10, 11, 24 and 30, and amended claims 1 and 16, have been fully considered and are persuasive, upon further consideration the rejection of 102(b) and 103(a) for claims 1, 3-9, 12-23 and 25-29, are hereby withdrawn.

The claims 1, 3-9, 12-23 and 25-29 now renumbered as 1-25 are allowed.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance.

This invention relates generally, to apparatus and methods for testing imaging devices. More particularly, the present technique relates to a phantom for testing imaging devices.

Based on applicant's amendment, with respect to claim 1, representative of claim 16, the closest prior art of record (Launay and White), Launay reference is directed to the field of devices that make it possible to simulate the body or a part of the body, particularly a patient's blood vessels, for the testing of an X-ray apparatus. White reference is directed to device that simulates a body of tissue in its interaction with radiation, but do not teach or suggest, among other things, "a second portion coupled to the first portion and rotatable with respect to the first portion, the second portion having a testing region of material radiographically similar to human tissue; wherein the phantom comprises a plurality of groups of vessel-like regions, wherein a first group of vessel-like regions comprises a first concentration of a radiographically opaque material and a second group of vessel-like regions comprises a second concentration of a radiographically opaque material".

The reasons for allowance of independent claims 9, 20, 23, 25 and 29, set forth in the previous office action dated on 12/5/2007 are not repeated herein, but are incorporated by

reference. As applicants properly point out in the previous remark, the prior art fails to disclose the claim limitation.

These key features in combination with the other features of the claimed invention are neither taught nor suggested by (Launay and White) prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
